# 45 1/2" Standard Table Configurations

The 45-1/2" standard table is designed with four post legs and a steel apron that wraps around the underside of the table top. This table design is commonly used for small mailroom applications that are in need of a durable table design that can withstand the weight of a small mailing or fax machine.

These tables can also be used as a work table for a mailroom supervisor or mailroom employee. A riser and sorters can be added to this table for storage and mail sorting.

**Please note:** that a storage shelf and sliding doors cannot be added to this standard table design and all standard tables have a fixed height of 29".
